Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 2, and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Partridge in view of Hallman et al.

Partridge discloses a quick-change two-piece watchband for attachment to a watchcasing comprising a watchcasing (52) having a first watch pin (Column 3, lines 29-31), a second watch pin (Column 4, lines 19-21), a first piece (20) of the two-piece watchband having an end threaded behind the first watchcasing pin securing the first piece in a desired position (24, 44, 46, 48, 50) and a second piece (22) of the two-piece watchband having an end threaded behind the second watchcasing pin securing the second piece in a desired position (28, 62, 64, 66, 68), but does not teach the first and second pieces having lengths of hook and loop fastener material attached to the ends of the watchcasing. However, Hallman teaches a watchcasing having two pieces each having lengths of hook and loop fastener material attached to the ends of the watchcasing (Figure 1). It would have been obvious to use the hook and loop fastener material taught by Hallman to replace the attaching portions of the watch of Partridge. Doing so would provide an alternate, quicker releasing means of changing the pieces.

Regarding claim 2, the watchband of Partridge discloses a fastening member attached to a free end of each the first (34) and the second (36, 38) pieces for securing the watchcasing to a wearer's wrist.

Regarding claim 8, the method of attaching a two-piece watchband to a watchcasing as claimed is inherent with the use of the modified band of Partridge.

Response to Arguments

3. Applicant's arguments, see Paper No. 8, filed 5/1/03, with respect to the rejection of claims 1-3, 8, and 9 under 35 USC 102(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground of rejection is made in view of Partridge and Hallman et al.

Allowable Subject Matter

4. Claims 3 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Spiller and Cross are cited for straps having hook and loop fastener material.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3727

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
